Many times women call on their family physicians, suffering, as they

imagine, one from dyspepsia, another from heart disease, another from

liver or kidney disease, another from nervous prostration, another with

pain here and there, and in this way they present alike to themselves

and their easy-going or over-busy doctor, separate diseases, for which

he, assuming them to be such, prescribes his pills and potions. In

reality they are all only symptoms caused by some weakness or derange-

ment of the organs distinctly feminine. The physician, ignorant of the

cause of suffering, keeps up his treatment until large bills are made.

The suffering patient gets no better by reason of the wrong treat-

ment, but probably worse. A proper medicine like Dr. Pierce's Fa-

LONG FLIGHT IS PROPOSED

Curtiss to Sail From Cleveland to

Detroit via Put-In-Bay. Cleveland, O., June 6,-Through his personal representative, George Gibbs. Glenn Curtiss has accepted a proposition from John H. Farrell, Jr. owner of the Farrell avadicate of parks, to make a flight next month from Cleveland to Put-In-Bay and Detroit, Farrell offered Curtiss \$10, 000 if he would make the start from his park here. The proposed route includes a stop on Put-In-Bay Island and then on to Detroit. Gibbs said he also had an offer from Otto Carmichael of Detroit of several thousand dollars if Curtiss will make the end of his flight in Detroit. The flight is proposed to be held one day during the week of July 15, when the national convention of Elks is in ses sion in Detroit.

Gibbs says the total purse will be more than \$25,000. Curtiss, it is said, was unwilling to sail over such a big body of water unless a suitable start ing point was furnished. For this reason Gibbs came here to get a look at the plateau in Forest City park, where Farrell wants the flight to commence. He seemed satisfied with the conditions.

A Gastronomic Joy. Of all the superb victuals which, by their great variety and unique collocation, make Maryland the Eden and Arcadia of every man who loves good enting, the planked shad is probably the most powerful and polgnant in its appeal to the senses. The wild duck, though it sets the palate to vibrating like an acolian barp, has no thrill for the eye. It is a small and unlovely bird of a dull color and ungraceful outline. So, too, the diamond back terrapin. It has no more beauty in death than a plate of soup. And certain other exquisite delicatessen, for all their sweetness, do not soothe the sense of smell. Of such are the raw oyster, the boiled hard crab and the Magothy river cabbage. But the planked shad-ah, here we come to a delicacy which enchants us alike through the eyes, the palate and the nose! As it comes upon the table it has the imperial dignity of a Charlemagne. Its noble head moves one to reverence; the epicycloid curve of its tail is like the curl of a great comber upon a ceral beach. And it radiates a
